CAREER OBJECTIVE

- To obtain a position wherein I will be able to utilize my technical skills for the betterment of the company and personal growth.

WORK EXPERIENCE

- 30 months of experience in developing Java based applications at Infosys Limited, Hyderabad. Currently working as a Systems Engineer in FCORE Team (the team responsible for addition of new features and enhancements of Finacle).

KEY PROJECTS

- ### *Project: Loan Origination System of Finacle*

Finacle's Loan Origination System comprises of various modules. I am working on Fee Module and Rate Lock Module. Back-end is developed using Java 5.0 and front-end development is done using FINUX workbench from Infosys, which generates swf files. I have also created Rules using WebSphere ILOG JRules Rule Studio for various modules.

Technologies used: J2EE, Oracle, XML, HTML, JBoss, IBM WAS, Finacle Tools, Eclipse, Toad for Oracle, WebSphere ILOG JRules Rule Studio.

Roles and Responsibilities:
- Understanding the Goals and Requirements as per the Software Requirement Specification, High Level Design and Low Level Design documents.
- Writing the Business Logic as per the requirement.
- Writing Business Validations specific to the module.
- Creating front-end screens according to the prototype.
- Integrating front-end screens with back-end code using XML files.
- Testing the flow and the functionality of the developed module.
- Creating SQL queries.
- Writing and running Data Migration scripts in Toad.
- Creating and Testing Rules using WebSphere Rule Studio.

- ### *Project: Customization of Finacle Software for BanColombia Bank*

Worked on customization of Finacle product for BanColombia Bank. Changes were customized both at front as well as back end. The server used was a UNIX server on which proprietary scripting language of Infosys was used.

Technologies used: Oracle, XML, HTML, Toad for Oracle, Finacle Tools, JavaScript

Roles and Responsibilities:
- Understanding the Goals and Requirements as per the Requirement Specification Document(Technical Design Document and Solution Document)
